

## Remarks

Upon entry of the amendment claims 1-27 will be pending in the above application. Applicants have canceled claims 28-34 without prejudice to the subject matter contained therein. Applicants have withdrawn claims 14-20 in light of the restriction requirement. Applicants have amended the claims to conform to US patent practice. Claims 1-6 (in part), 7-13, and 21-28 are ready for examination.

### Restriction Requirement

The Examiner has set forth a restriction requirement consisting of two groups.

Invention I, Claims 1-6 (in part), 7-13, 21-28 and 34 (in part), drawn to compounds of the formula of claim 1 wherein L is (II) and their subsequent compositions and methods. An election of species is required.

Invention II, Claims 1-6 (in part), 14-20, 21-28 and 34 (in part), drawn to compounds of the formula of claim 1 wherein L is (III) and their subsequent compositions and methods. An election of species is required.

### Election

Applicants respectfully elect Invention I for examination; however, Applicants respectfully submit that examination of L is formula (III) fails to constitute an undue burden of searching. Therefore Applicants have not canceled the pertaining subject matter from claims 1-6 and 21 or the non-elected claims for convenience, if the Examiner determines that the initial restriction was not needed.

Applicants elect the compound of Example 4.

### Conclusion

Applicants have addressed each and every issue set forth by the Examiner. Applicants respectfully submit that the present application is in good condition for examination.
